

Cameras for LCD reversing video systems and navigation systems

Do you want to add one or more cameras to your LCD reversing video system? Front, side or trailer camera – Dometic WAECO has the right camera for every demand and budget. Installation is hassle-free, all fittings are included in the delivery kit.

Do you have a navigation system with monitor fitted in your vehicle? Then it's easy and cost-efficient for you to get a fully-fledged reversing video system. All you have to do is connect a WAECO PerfectView rear-view camera to the monitor of your navigation system. Matching adapter cables are available as optional accessories. All camera kits are supplied complete with adapter cables. Simply check the table below to see which WAECO camera is compatible with your navigation system, and what accessories you will need.
