SAFETY DATA SHEET

Dometic

1/9

PAG oil high viscosity, ISO 100 8887200002/ 8887200014

Section 1. Identification

Product identifier	: PAG oil high viscosity, ISO 100 8887200002/ 8887200014
Product code	: Not available.
Other means of identification	: Not available.
Product type	: Liquid.
Relevant identified uses of	the substance or mixture and uses advised against
Product use	: Lubricant.
Area of application	: Professional applications.
Supplier's details	: Dometic Australia Pty Ltd 1 John Duncan Court, Varsity Lakes, QLD 4227 Telephone no.: 075507 6000 (Mon - Fri, 9 am - 5 pm) Fax no.: 075507 6001
e-mail address of person responsible for this SDS	: info@chemical-check.de, k.schnurbusch@chemical-check.de
Emergency telephone number (with hours of operation)	: Poisons Information Centre – 13 11 26 in Australia (0800 764 766 in New Zealand)

Section 2. Hazard(s) identification

Classification of the substance or mixture	: Not classified.
GHS label elements	
Signal word	: No signal word.
Hazard statements	: No known significant effects or critical hazards.
Precautionary statements	
Prevention	: Not applicable.
Response	: Not applicable.
Storage	: Not applicable.
Disposal	: Not applicable.
Supplemental label elements	: Not applicable.
Other hazards which do not result in classification	: None known.

Section 3. Composition and ingredient information

Substance/mixture

Other means of identification

: Mixture

: Not available.

There are no ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

Section 4. First aid measures

Description of necessary first aid measures Eye contact : Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs. Inhalation : Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur. Skin contact : Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur. : Wash out mouth with water. Remove victim to fresh air and keep at rest in a Ingestion position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

Most important symptoms/effects, acute and delayed

Potential acute health effects

Eye contact	: No known significant effects or critical hazards.
Inhalation	: No known significant effects or critical hazards.
Skin contact	: No known significant effects or critical hazards.
Ingestion	: No known significant effects or critical hazards.
Over-exposure signs/sym	<u>ptoms</u>
Eye contact	: No specific data.
Inhalation	: No specific data.
Skin contact	: No specific data.
Ingestion	: No specific data.
Indication of immediate me	dical attention and special treatment needed, if necessary
Notes to physician	 Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
Specific treatments	: No specific treatment.
Protection of first-aiders	: No action shall be taken involving any personal risk or without suitable training.

See toxicological information (Section 11)

Section 5. Fire-fighting measures

Extinguishing media	
Suitable extinguishing media	: Use dry chemical, CO ₂ , alcohol-resistant foam or water spray (fog).
Unsuitable extinguishing media	: Do not use water jet.
Specific hazards arising from the chemical	: In a fire or if heated, a pressure increase will occur and the container may burst.
Hazardous thermal decomposition products	: Decomposition products may include the following materials: carbon dioxide carbon monoxide Toxic pyrolysis products
Special protective actions for fire-fighters	: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
Special protective equipment for fire-fighters	: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

Section 6. Accidental release measures

Personal precautions, protect	tiv	e equipment and emergency procedures
For non-emergency personnel	:	No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Put on appropriate personal protective equipment.
For emergency responders	:	If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".
Environmental precautions		Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).
Methods and materials for co	nt	ainment and cleaning up
Small spill	:	Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
Large spill	:	Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

Section 7. Handling and storage

Precautions for safe handling

Protective measures Advice on general occupational hygiene		Put on appropriate personal protective equipment (see Section 8). Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.
Conditions for safe storage, including any incompatibilities	:	Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully

resealed and kept upright to prevent leakage. Do not store in unlabeled containers.

Use appropriate containment to avoid environmental contamination.

Section 8. Exposure controls and personal protection

Control parameters

Occupational exposure limits

None.

Appropriate engineering controls	ood general ventilation should be sufficient to control worker exposure to control worker exposure to the sufficient to the sufficient to control worker exposure to the sufficient to	o airborne:		
Environmental exposure controls	Emissions from ventilation or work process equipment should be checked they comply with the requirements of environmental protection legislation cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.			
Individual protection measu				
Hygiene measures	/ash hands, forearms and face thoroughly after handling chemical prod ating, smoking and using the lavatory and at the end of the working peri ppropriate techniques should be used to remove potentially contaminate /ash contaminated clothing before reusing. Ensure that eyewash statio afety showers are close to the workstation location.	od. ed clothing.		
Eye/face protection	afety eyewear complying with an approved standard should be used wh ssessment indicates this is necessary to avoid exposure to liquid splash ases or dusts. If contact is possible, the following protection should be nless the assessment indicates a higher degree of protection: safety gla de-shields.	ies, mists, worn,		
Skin protection				
Hand protection	hemical-resistant, impervious gloves complying with an approved stand e worn at all times when handling chemical products if a risk assessment is is necessary. 4 - 8 hours (breakthrough time): butyl rubber (0.7 mm) 1 hour (breakthrough time): nitrile rubber (0.4 mm). ecommended: Protective hand cream.	nt indicates		
Body protection	ersonal protective equipment for the body should be selected based on eing performed and the risks involved and should be approved by a spe efore handling this product. Recommended: Long-sleeved protective cl	cialist		
Other skin protection	ppropriate footwear and any additional skin protection measures should elected based on the task being performed and the risks involved and s oproved by a specialist before handling this product. Recommended: S	hould be		

Section 8. Exposure controls and personal protection

Respiratory protection : Ba

Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use. Recommended: A respirator is not needed under normal and intended conditions of product use. If user operations generate fumes: Appropriate breathing apparatus may be required. Filter A2 P2

Section 9. Physical and chemical properties

Appearance	
Physical state	: Liquid.
Color	: Light Yellow.
Odor	: Characteristic.
Odor threshold	: Not available.
рН	: 5 to 7 [Conc. (% w/w): 10%]
Melting point	: -45°C (113°F) (Setting point)
Boiling point	: Not available.
Flash point	: Open cup: 240°C (464°F) [Cleveland.]
Evaporation rate	: Not available.
Flammability (solid, gas)	: Not applicable.
Lower and upper explosive (flammable) limits	: Not applicable.
Vapor pressure	: Not available.
Vapor density	: Not applicable.
Relative density	: Not available.
Density	: ∼0.978 g/cm³ [50°C (122°F)]
Solubility	: Insoluble in the following materials: cold water and hot water.
Partition coefficient: n- octanol/water	: Not applicable.
Auto-ignition temperature	: 365°C (689°F) (Ignition temperature)
Decomposition temperature	: Not available.
Viscosity	: 0.8 cm²/s (80 cSt) at 50°C
Flow time (ISO 2431)	: Not available.
Physical/chemical properties comments	: Non-volatile.

Section 10. Stability and reactivity

Reactivity	: No specific test data related to reactivity available for this product or its ingredients.
Chemical stability	: The product is stable.
Possibility of hazardous reactions	: Under normal conditions of storage and use, hazardous reactions will not occur. Under normal conditions of storage and use, hazardous polymerization will not occur.
Conditions to avoid	 Protect from humidity. Hygroscopic. Keep away from heat. Decomposition (°C): >220.

Date of issue/Date of revision	: 24/01/2017	Date of previous issue	: No previous validation	Version : 1	5/9
--------------------------------	--------------	------------------------	--------------------------	-------------	-----

Section 10. Stability and reactivity

Incompatible materials

```
: Other chemicals
```

Hazardous decomposition
products: Under normal conditions of storage and use, hazardous decomposition products
should not be produced.

Section 11. Toxicological information

Information on toxicological	<u>effects</u>
Acute toxicity	
Conclusion/Summary	: Not available.
Irritation/Corrosion	
Conclusion/Summary	
Skin	: Not available.
Eyes	: Not available.
Respiratory	: Not available.
Sensitization	
Conclusion/Summary	
Skin	: Not available.
Respiratory	: Not available.
Mutagenicity	
Conclusion/Summary	: Not available.
Carcinogenicity	
Conclusion/Summary	: Not available.
Reproductive toxicity	
Conclusion/Summary	: Not available.
Teratogenicity	
Conclusion/Summary	: Not available.
Specific target organ toxici	<u>y (single exposure)</u>
Not available.	
Specific target organ toxici	y (repeated exposure)
Not available.	
Aspiration hazard	
Not available.	
to former the second second second	. No. 4
Information on the likely routes of exposure	: Not available.
Potential acute health effects	-
Eye contact Inhalation	: No known significant effects or critical hazards.
	: No known significant effects or critical hazards.
Skin contact	: No known significant effects or critical hazards.
Ingestion	: No known significant effects or critical hazards.
Symptoms related to the phy	sical, chemical and toxicological characteristics
Eve contact	No specific data

Symptoms related to the	physical, chemic	cal and toxicological char	<u>racteristics</u>		
Eye contact	: No specifi	ic data.			
Inhalation	: No specifi	ic data.			
Skin contact	: No specifi	ic data.

Not available.	
General	: No known significant effects or critical hazards.
Carcinogenicity	: No known significant effects or critical hazards.
Mutagenicity	: No known significant effects or critical hazards.
Teratogenicity	: No known significant effects or critical hazards.
Developmental effects	: No known significant effects or critical hazards.
Fertility effects	: No known significant effects or critical hazards.

Numerical measures of toxicity

Acute toxicity estimates

Not available.

Section 12. Ecological information

Toxicity

Conclusion/Summary

: Not available.

Persistence and degradability

Conclusion/Summary	: Not available.		
Product/ingredient name	Aquatic half-life	Photolysis	Biodegradability
PAG oil high viscosity, ISO 100 8887200002/ 8887200014	-	-	Not readily

Bioaccumulative potential

Not available.

Mobility in soil Soil/water partition coefficient (Koc)	: Not available.	
Other adverse effects	: No known significant effects or critical hazards.	

Date of issue/Date of revision : 24/01/2017 Date of previous issue : No previous validation Version : 1

Section 13. Disposal considerations

Disposal methods

: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and nonrecyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Section 14. Transport information

r				
	ADG	ADR/RID	IMDG	ΙΑΤΑ
UN number	Not regulated.	Not regulated.	Not regulated.	Not regulated.
