CLIMA.A.2 - Climate Finance, Mainstreaming, Montreal Protocol

EU License for trading Hydrofluorocarbons (HFCs) under the Montreal Protocol

This is an extract from the EU Fgas Portal and HFC Licensing System, dated 30/03/2022 ¹

Dometic Germany GmbH

DE2452642, Germany, Emsdetten 48282, Hollefeldstrasse 63

has a valid registration in the Registry pursuant to Article 17 of the FGR as an

- Importer of HFCs (bulk)
- Importer of HFC - precharged RAC(Refrigeration, Air Conditioning and Heatpump) equipment.

with the following FGAS ID Number: 9736

The above undertaking is therefore licensed to import bulk HFCs / import HFC-precharged RAC equipment.

Please note, the company also requires:

- For importing bulk HFC gases: Sufficient quota balance in tonnes CO₂ equivalent taking into account also other business activities affecting the annual placing on the market of HFCs.
The company has a quota for the import of bulk HFCs available.
- For importing HFC - precharged equipment: Sufficient authorisations in tonnes CO₂ equivalent at the time of release of free circulation and a declaration of conformity.
The company has, on 30/03/2022, not more than 117527 tonnes CO₂ of authorisations for the import of equipment with HFCs available².

Quota and authorisations amounts are accessible to EU custom authorities via the Fgas Portal & Licensing System (<https://webgate.ec.europa.eu/fgas>).

This printout is for information purposes only. It does not constitute a proof that the licence is valid irrespective of the status indicated. Only the electronic version in the Fgas Portal & Licensing System is considered authentic.

¹ If date is not recent, an updated printout may be demanded from the importer as the print out function from the electronic system is generally available at all times.

² The company may actually have less authorisations available, in case of other recent EU imports.
